PROFESSIONAL SUMMARY

Marketing strategist and systems architect with 15+ years helping healthcare and services brands translate complex operations into revenue-driving marketing systems. I align executive strategy, data architecture, automation, and creative storytelling to make complex programs easy to scan for hiring teams and partners.

My playbook centers on impeccable formatting: left-aligned content, concise bullets, and measurable outcomes so hiring managers and ATS software can quickly see the impact.

RESUME FORMAT STRATEGY

CHRONOLOGICAL

Leverages a reverse timeline to highlight steady growth. Perfect when a career has consistent advancement in one field.

- Contact & summary up front
- Job history prioritized by recency

FUNCTIONAL

Shifts the focus from dates to transferable skills, useful when changing roles or bridging employment gaps.

- Highlights competencies before roles
- Groups achievements by skill area

- Supports ATS scanning with clear headings
- Still includes employer list for context

COMBINATION

Blends skills and experience so the most relevant information leads.

- Skills summary above or beside experience
- Maintains ATS-friendly structure
- Eliminates optional sections unless impactful

PROFESSIONAL EXPERIENCE

Director of Marketing & Communications

2016 — Present

Graston Technique · Indianapolis, IN

- Directed a full brand, messaging, and digital ecosystem refresh that aligned 30,000+ practitioners with a new value framework.
- Designed and deployed four custom marketing tools (ROI calculator, pricing navigator, automation dashboards) using JavaScript, HubSpot CMS, and Firebase so revenue teams could self-serve insights.
- Built a multi-division HubSpot architecture with 15+ automations, scaling to 50K+ contacts while reducing manual data cleanup by 60%.
- Managed a \$500K+ marketing budget across digital, events, and partner programs while achieving a 300% increase in organic search traffic.

Technologies: HubSpot, WordPress, JavaScript, GA4, ActiveCampaign, Adobe Creative Cloud

Senior Marketing Manager

2014 — 2016

Pike Medical Consultants · Indianapolis, IN

- Directed integrated campaigns for healthcare consulting clients, generating 10,000+ patient visits through the PrimaryCare Indy network.

- Owned \$100K+ Google Ads spend for multiple client accounts and optimized conversion by introducing A/B tests and granular attribution.
- Created cohesive identity systems, print materials, and seasonal campaigns that lifted brand recall and referral leads.

Technologies: Google Ads, WordPress, Email Marketing Platforms, Adobe Creative Suite, SEO tools

Marketing Coordinator

2012 — 2014

Early Career Marketing · Indianapolis, IN

- Launched multi-channel campaigns on shoestring budgets by distilling complex ideas into clear visuals and measurable KPIs.
- Improved reporting cadence with weekly dashboards, which gave leadership visibility into creative, paid, and email performance.
- Managed vendor relationships and creative production timelines while learning to document processes for fast iteration.

Technologies: Basic CRM, Email Platforms, Social Channels, Design Tools
